

Children's University Half Term Challenge!

Get researching!

Halloween is nearly here! Every year lots of people carve pumpkins to mark the holiday, but do you know why? Research and write about the origins of pumpkin carving and then design your own pumpkin.

Get skillful!

You may know that at Children's University skills are really important! Our Friends and validated learning partner What's your strength?® have fantastic resources which will help build your skills! Complete two of their activities.

Get curious!

October is Black History Month. Join children's television presenter Nigel Clarke as he celebrates the lives of six extraordinary people and their contribution to British history. Then, write ten things you have learnt from the videos.

Things to do this half term!

Each activity is worth 1 credit. To get a stamp code for *Children's University Online* email contactus@childrensuniversity.co.uk with evidence - this could be a photograph, video, a work sheet, or writing about what you did! All activities require adult supervision. The supervising adult is expected to manage all activity risk.

Get crafty!

There's no need to buy new decorations when you can recycle and transform plastic bottles, cardboard boxes and whatever you have around your house, into spooky Halloween decorations – let your imagination run wild!

Get active!

As the Autumn nights draw in, it's tempting to stay snuggled up on the sofa! To help keep you active go on a nature walk and make an autumnal collage of a landscape using different coloured leaves and natural materials found outside.
