

Children's University Online:

How to Delete a child's account

Deleting a child's account from *Children's University Online* completely removes all data, activity stamps and awards attached to the child, once deleted a child will not be able to log in and you will not be able to retrieve data.

Deleting a child will permanently remove them from the system, along with all their claimed stamps, awards and hours. Their data will not appear on reports - even if the report is for a timespan before the child was deleted. If you do not want to delete, you may want to archive these users.
